

DOCUMENTED PRECISION, DELIVERED TO PRINT

Founded in 2001, Losch Machine Inc. is an ISO 9001:2015-certified precision CNC machine shop. We deliver consistent, traceable components for demanding industrial applications.

We machine stainless steels, nickel and specialty alloys, plastics and composites to documented tolerance, with material certifications and heat/lot traceability documented as required.

ISO 9001:2015 CERTIFIED

Maintained, audited, documented.

FULL MATERIAL TRACEABILITY

Heat and lot traceability documented.

AMERICAN MANUFACTURING

Domestic production, start to finish.

MATERIALS

316 / 316L STAINLESS

MONEL

C276 / HASTELLOY

17-4PH

TITANIUM

INCONEL

PLASTICS & COMPOSITES

DFARS-compliant material available as required.

PROCESSES

PRECISION CNC TURNING

PRECISION CNC MILLING

BAR-FED PRODUCTION TURNING

DRILLING, TAPPING & THREADING

MACHINING ENVELOPE

TURNING

10" chucking capacity · 3" spindle capacity · bar-fed production

MILLING

To 50" × 20" × 25" travel · 52" × 18" table

TOLERANCE

Held to print. Verified before release.

VALUE-ADD SERVICES

HEAT TREAT

FINISHING

PICKLE & PASSIVATION

SUB-ASSEMBLIES

WHAT WE PRODUCE

Valve components and bodies

Fittings and plugs

Line swing and hinge pins

Pump and flow-control hardware

Seats and seals

Arc horn rod clamps

Representative examples of capability, held to documented tolerance.

Stainless bearing shafts

Ball valve assemblies

Shafts and bushings

Machined switchgear castings

Disc inserts and orifice parts

Nuts, screws, pins and rings

TURNING CENTERS

Haas ST-30 · ST-20 (2) · ST-10 (2) · SL-20 ·
SL-10 T (2) · SL-10 TB · SL-10 (2) · TL-15

MACHINING CENTERS

Haas VF-4 · VF-2 (2) · VF-2D

SUPPLY PROGRAMS

BLANKET ORDERS

released against scheduled quantities.

KANBAN RELEASES

pulled against standing releases.

INVENTORY SUPPORT

finished stock held and shipped on release.

WHO WE SERVE

INDUSTRIAL OEM

Custom components machined to your print and specification.

PUMP & ROTATING
EQUIPMENT OEMS

Shafts, sleeves, bushings, and wear parts machined to close tolerance.

OIL, GAS & MARINE

Documented material certifications and heat-number traceability for pressure-retaining and safety-critical components.

FLOW CONTROL & MRO

Repeat parts held to consistent specification.

UTILITY & POWER
INFRASTRUCTURE

Castings and other customer-supplied components machined to finished specification.
